FAMILIAR AMERICAN ENVOY.

TAX FOR TITLED FORTUNE-HUNTERS.

WASHINGTON, July 13.

The "Times" writes: "Public interest is beginning to be roused, both in Japan and America, by the effect of the proposed Anglo-Japanese arbitration treaty upon the Anglo-Japanese alliance.

"The existing alliance is incompatible, in fact, not in fact, with any general arbitration treaty between Britain and a third power."

"It is difficult to modify the alliance by abetting the incongruity without raising the whole question of its revision and prolongation."

"It is true that Britain has arranged with Japan that clause 2 of the treaty of alliance shall not apply when either is fighting a nation with which the other has concluded an arbitration treaty. It is certain that Britain has not taken the step without full consultation with the Dominions Ministers."
